

Personal Protective Equipment

What is GE?

The Company of the future

With an unparalleled heritage of innovation, GE is among the most valuable and respected brands in the world. From Thomas Alva Edison's first incandescent light bulb to the latest jet engine brimming with internet-connected sensors and 3D-printed parts, for nearly 130 years GE has pioneered technologies that have spurred world-transforming changes and improved the lives of billions

GE is a trademark of General Electric Company.
Used under trademark license by Caco Abbo Internacional, S.A.

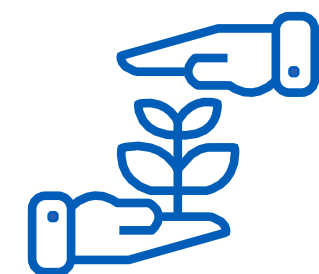

+120 Years in the industry

Founded in 1892 by the famous inventor Thomas Alva Edison. GE has been a leader and pionner in industrial innovation to this day.

What industries does GE Operate in? Industry

GE has long been a leader in Power, Renewable Energy, Aviation and Healthcare. Today, GE also leads in delivering solutions across Additive Manufacturing, materials science and data analytics.

Environmental, social and governance

GE brings to market innovative solutions, always working to reduce the impact of their technology and environmental footprint.

World's Most Valuable Brands

GE is ranked #20 in Forbe's world's most valuable brands (2020).

GE is a highly recognized brand that can compete with top players

On August 2020, a survey was conducted in North America with more than 500 participants. Among them, consumers and professional contractors. They were asked to checkmark from a list of brands or companies the ones they were most familiar with in each of the below categories. *Despite not being in the market at the time of the survey, GE still received high brand category awareness.*

Top brand

	PPE Owners Consumers	PPE Owners Pro Contractors
